Hi Denise,

An issue has come to my attention that concerns me, this is in regard to the company HP, which is creating and selling surveillance technologies that is being used by Israel and our own federal government to track and oppress Palestinians, immigrants, prisoners, etc. I don't know Cambridge's exact business relationship with HP (if any) but I think it would be important for our city to make a statement that we do not tolerate violence and human rights violations anywhere on this planet. I'm going to try and attend the hearing on Monday, hopefully you and the other city councilors will make a stand, seeing as I believe none of us is free until all of us are free.

thank you

Mike Goodman
